**DETAILED ACTION**

***Response to Amendment***

1. Applicant's arguments, see amendment, filed 12/16/2003, with respect to claims 1-9, 14, 21, 23, 24 and 28-31 have been fully considered and are persuasive. The rejection of 09/16/2003 has been withdrawn, due to the submission of the translation of the foreign priority document.

***Allowable Subject Matter***

2. Claims 1-9, 14, 21, 23, 24 and 28-40 are allowed.
3. The following is an examiner's statement of reasons for allowance:

A search of the prior art did not disclose an electro-optical device and a method of fabricating such a device comprising a combination of structural elements, more specifically:

- (a) A first storage capacitor electrode and a second storage capacitor electrode comprising a conductive film of a gate electrode of the thin-film transistor.
- (b) A light shielding first conductive layer electrically connected between the semiconductor layer and the pixel electrode.
- (c) A second conductive layer comprising a film of the first conductive layer as a storage capacitor line, at least partially overlapping the data lines in a plan view, and electrically connected to the second storage capacitor electrode.

(d) A light shielding conductive layer, as a storage capacitor line, electrically connected to the second storage capacitor electrode.

As can be seen from Fig. 3 of the cited art by Sato (though discounted as a prior art due to the submission of the translation document), and a previous disclosure by the same inventors i.e., Sato et al. (U.S.Patent No. 5,708,485), the light shield layer (4p) has an electrode (12B) in between the semiconductor layer (10) and the pixel electrode (8). Thus Sato does not teach the recited limitation in the instant claims 'a light shielding first conductive layer (80a) electrically connected between the semiconductor layer (11a') and the pixel electrode (9a)'.

In addition Sato does not teach two storage capacitors, instead discloses only one storage capacitor (13).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
